### Hopone

- SCC site is at Volunteer Nan Mya Htwe and she has collected sputum sample from nearby villages. Then, she had transported to township hospital lab center for sputum diagnosis. She had copies of monthly sputum register and summary sheet up to February 24. She has fully supported by promo items about sputum cups, ice box and pamphlets etc...

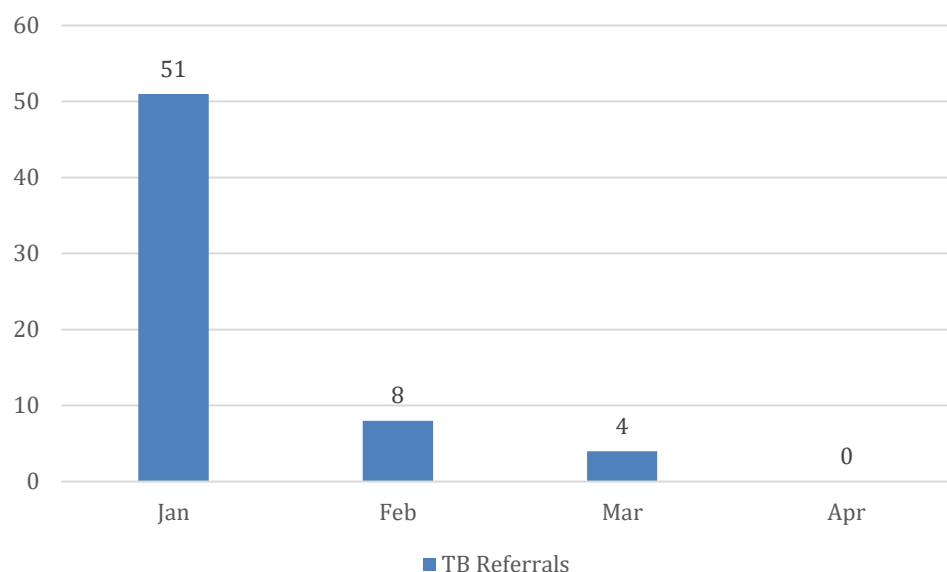

### Volunteer

- We also had joint supervision with SCC supervision together by volunteer monitoring visit.
- Taunggyi  
Nan Shwe Nu, she is our PICTS volunteer at Htee Nal Taung Village in Naung Khel Village Tract who is covered for her villages round population 500. She is also active volunteer and no special difficulties during this period. She has used TB referred app & DOTs app and no special user issues. She has total referred 63 patients and new 2 TB patients up to April 24.

Her TB referred and TB registered patients in Jan-April 24 are as follows,

TB Suspected Referrals (Nan Shwe Nu)

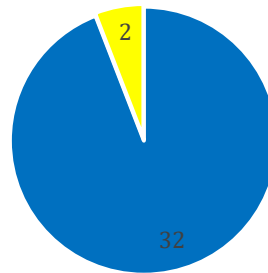

- Hopone

Nan Mya Htwe, she is our volunteer in PICTS at Myoet Oo Yet Village and she is coverage for her village population is round about 1000. She has no special difficulties in case finding. She has used TB referred app and DOTs app and no technical issues in her usage. Currently she has total 34 referred and new 2 TB patients up to April 24.

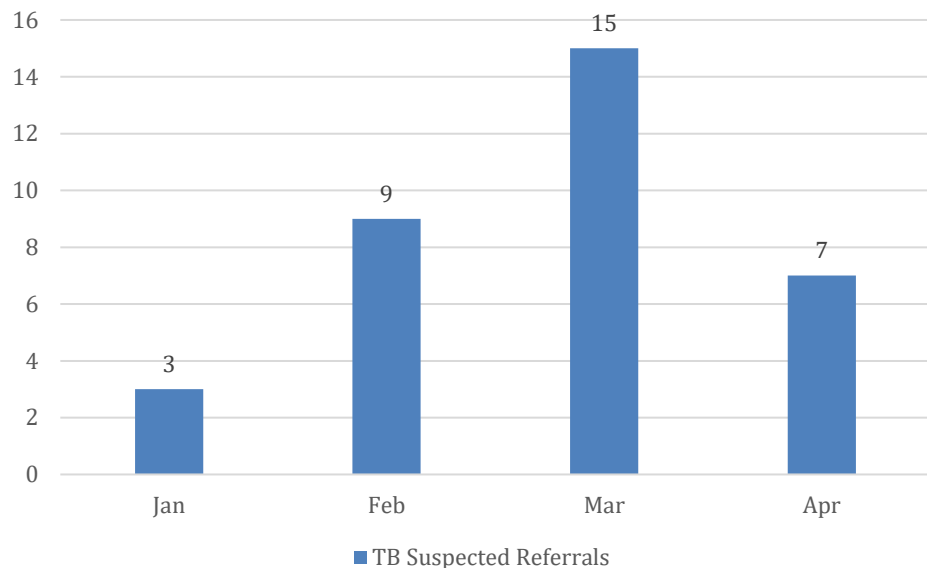

Her TB referred and TB registered patients Jan-April24 are as follows,

Jan-April24 (Nan Mya Htwe)

■ Non TB ■ TB

TB Suspected Referrals (Nan Mya Htwe)

**TB patients****- Taunggyi**

We had monitoring to a TB patient under Nan Shwe Nu's DOTs supervision. He had regular taking of medicine and no special complaints about side effects. His DOTs supervision card and DOTs app are also supervised by Nan Shwe Nu. She had regular visit to him.

**- Hopone**

We had monitoring to a TB patient under DOTs supervision of our volunteer. He has not special side effects and regular taking of medicine. His DOTs supervision card is also supervised in regular basis. His family member under 5year is also taking TPT.

Finding	Instruction for action taken
<b>SCC</b> <ul style="list-style-type: none"> <li>If sputum sups are transported in daily, please encourage to send some assumed days in a week ( eg- Tuesday and Thursday in week as 2 days per week)</li> </ul>	Responsible by FO Ei Ei Thant FO Yar Yar Htun PM- Dr LHA

<b>NTP</b> <ul style="list-style-type: none"> <li>RO Dr Ei Chaw is proposed us to relocate of MO position in team leader at Taunggyi.</li> <li>Double X strategy is started in Taunggyi since 2024</li> </ul>	PM Dr LHA FO Ei Ei Thant FO Hsu Hsu Wai Htun
<b>TB patients</b> <ul style="list-style-type: none"> <li>To keep monitor regular basis of TB patients by assigned volunteers</li> </ul>	Assigned Volunteers FO Yar Yar Htun FO Ei Ei Thant

## M&E activities

Data are completed up to May24 in Presumptive TB register, TB patient register, TPT register, DOTs register and FO can use friendly to FO web.  
SCC sites are also provided documents copied up to February 2024.  
Volunteer data are kept at the SDP due to security concern after monthly data reporting is completed.

## Recommendations

<p>Recommendation</p>	<p>FO to encourage volunteers for TB referral app refresh and daily use for updated information.</p> <p>FO sustain current practice of documents storage in SDP and informed to supervisor in timely for any issues or challenges.</p> <p>Volunteers need to know incentive scheme updated 2024.</p>
